ABBREVIATIONS, RIGHTS OMBUDSPERSON

Politechnika Wroclawska

- PSWiN: Act of 20 July 2018, Law on Higher Education and Science.
- SzD: Doctoral School.
- Doctoral School Regulations: Wrocław University of Science and Technology regulations effective 1 October 2025. [English information](#)
- PWr/University: Wrocław University of Science and Technology.
- IPB: individual research plan.
- IPK: individual education plan.
- OŚ: midterm evaluation.

The Doctoral Student Rights Ombudsperson safeguards doctoral students' rights, examines suspected violations and may intervene when a violation is found. The role includes:

- mediation and fact-finding in individual cases, including approaches to university authorities with the student's consent;
- monitoring and supporting respect for doctoral students' rights;
- preparing reports and recommendations on problems with those rights;
- organising information campaigns.

Legal assistance from the Ombudsperson is free of charge. Further information:

[Website \(Polish version only\)](#)

INTRODUCTION

Hello! This Infopack brings together guidance on the Doctoral School of Wrocław University of Science and Technology and its rules. It covers the required paperwork, where and when to submit it, and practical matters such as parking and food near campus. The Doctoral Students' Council initiated this guide.

What is the Doctoral Students' Council?

The Council is an elected body of the University's Doctoral Students' Union. It represents doctoral students, gives opinions on matters affecting them, sets the Union's priorities, cooperates with other University bodies, and organises activities concerning culture, research, teaching, welfare, finances and regulations.

All participants in doctoral studies and students of the Doctoral School belong to the Doctoral Students' Union. Its regulations, the University Statute and the Doctoral School Regulations explain the powers of the Council and other Union bodies.

The 16th Council term created this guide. The Doctoral School's deans and office reviewed it, and the 21st Council term updated it.

21st PWr Doctoral Students' Council

For more information, visit our website, Instagram and Facebook:

[Website \(Polish version only\)](#) / [Website \(Polish version only\)](#)

[Website \(Polish version only\)](#)

DEANS OFFICE

Politechnika Wrocławska

The Dean, Prof. Krzysztof Walkowiak, leads the Doctoral School together with the Vice-Deans: Prof. Agnieszka Wyłomańska (Doctoral Students) and Prof. Magdalena Kasproicz (Internationalisation and Socioeconomic Cooperation). For teaching and course matters, contact the Vice-Dean for Doctoral Students. The Doctoral School Office handles student administration. Since January 2026, the School has reported directly to the Rector. Contact details for the School leadership:

[Website \(Polish version only\)](#)

The Doctoral School Office supports the deans. It handles recruitment procedures and documentation throughout your doctorate. Its staff are office head Anna Czapiga-Rogotowicz, Barbara Cop, Magdalena Wójcik, Katarzyna Kamińska-Szydło, Monika Wesółowska, Agnieszka Chaszczewska, Joanna Kamińska-Borycka and Regina Stelmaszyk.

The Office is open Mon 8:00–12:00, Wed 12:00–14:00, Thu 10:00–14:00 and Fri 8:00–12:00 in room 313, second floor, building A1, Wybrzeże Wyspiańskiego 27, near stairwell C. Check [Website \(Polish version only\)](#) for changes to opening hours.

If you have a problem, contact the Doctoral School Office. At a doctoral student's request, discussions with the Office remain confidential.

Head of the Doctoral School Office:

Anna Czapiga-Rogotowicz

Barbara Cop:

- teaching administration;
- course registration;
- admissions;
- renewal and ordering of electronic doctoral student ID cards;
- student administration, including certificates, applications, semester reports and plans, individual research plans, and updates to personal and address details.

Magdalena Wójcik:

- course registration;
- supervisors;
- admissions;
- midterm evaluation;
- medical examination referrals and occupational safety training;
- renewal and ordering of electronic doctoral student ID cards;
- student administration, including certificates, applications, personal and address details, and help with supervisor appointment or change forms.

Katarzyna Kamińska-Szydło:

- scholarships;
- admissions;
- student administration, including certificates, personal and address details, and health insurance registration and deregistration.

Monika Wesółowska:

- Industrial Doctorate programme;
- admissions and projects;
- student administration, including certificates, personal and address details, and support for Industrial Doctorate students.

Agnieszka Chaszczewska:

- services for international students;
- admissions;
- student administration, including certificates, applications, semester reports and semester plans.

Joanna Kamińska-Borycka:

- scholarships;
- admissions;
- student administration, including certificates, personal and address details, and health insurance registration and deregistration.

Regina Stelmaszyk:

- didactics;
- student administration, including certificates, personal and address details, and health insurance registration and deregistration.

KEY DATES MILESTONES

Politechnika Wroclawska

Key deadlines during your doctorate come from the Law on Higher Education and Science, the Doctoral School Regulations and the schedule for your semester and cohort. Do not rely on dates from previous years alone.

I. Appointing a supervisor

The law requires a supervisor or supervisors to be appointed within three months of starting the programme. For students starting on 1 October 2026, the current PWr schedule requires an application by 30 October 2026.

Forms and current rules: [Website \(Polish version only\)](#)

II. Individual education plan (IPK)

You and your supervisor agree the IPK in line with the programme of study. Submission dates depend on your stage of study. The first IPK for the cohort starting on 1 October 2026 is due on 30 October 2026.

Programme of study: [Website \(Polish version only\)](#)

III. Individual research plan (IPB)

Prepare the IPB with your supervisor and submit it within 12 months of starting the programme. If you start on 1 October 2026, the deadline is the end of your first year, 30 September 2027. The March intake has a different deadline. Check your cohort's schedule.

After midterm evaluation, the IPB may be amended in justified cases under the current Doctoral School Regulations.

IV. Schedule

The Doctoral School's published schedule of student duties is the current source of deadlines. Winter semester 2026/2027: [Website \(Polish version only\)](#)

V. Midterm evaluation

The evaluation takes place halfway through the programme. The result, positive or negative, and its reasons are public. A negative result leads to removal from the student register. The submission and committee dates are published for each cohort.

For winter 2026/2027, the schedule sets a 13 October 2026 self-report deadline for some 2024/2025 students and 19 January 2027 for those who began in March 2025. Check the deadline for your cohort.

Midterm evaluation information: [Website \(Polish version only\)](#)

VI. Completing the Doctoral School programme

The programme lasts six to eight semesters and ends when you submit your doctoral dissertation. The IPB specifies the submission deadline. The Regulations allow a total extension of up to two years in specified cases. Doctoral scholarships are paid for no more than four years in total.

TEACHING PRACTICE

Politechnika Wroclawska

“The programme of study may provide for professional practice in the form of teaching or assisting in teaching, for no more than 60 teaching hours per year.” [1]

Your programme of study specifies the required practice hours for each year. Programmes are available on the Doctoral School website: [Website \(Polish version only\)](#)

From 1 October 2026, the required practice hours are:

	Year I	Year II	Year III	Year IV
Teaching hours	0	30	30	0

What does teaching practice involve?

“Professional practice may take the form of teaching or assisting in teaching.” [2]

Teaching means independently leading a class group or some of its topics. Assistance means joining a course as an assistant to its instructor. A doctoral student cannot assist another doctoral student. Assistants support the instructor and do not teach a class independently.

You complete teaching practice at the faculty where your supervisor works. Agree the course, hours and dates with your supervisor, who should inform their head of department.

Before the semester begins, the faculty dean informs its teaching administration whether doctoral students will teach independently or assist. The faculty dean decides the form of practice.

Lectures cannot count as teaching practice.

Doctoral students completing teaching practice, whether teaching independently or assisting, are required to provide students with one clock hour (60 minutes) of consultations each week while classes are in session and during examination sessions.

In justified cases, practice hours may be reduced or waived under § 8(3) of the Doctoral School Regulations [3].

Submit a request endorsed by your supervisor and the Doctoral School Dean to the Vice-Rector for Education. You may apply at any time, but preferably before the semester concerned begins.

Submit a reasoned application citing the relevant Regulations through the Doctoral School Office.

Application templates: [Website \(Polish version only\)](#)

Legal basis:

[1] Art. 201(5), Law on Higher Education and Science [2] § 8(1), School Regulations [3] § 8(3), School Regulations

DOCTORAL SCHOLARSHIP

Politechnika Wroclawska

I. Scholarship amount and payment date

A Doctoral School student without a doctoral degree is entitled to a doctoral scholarship, subject to the statutory exceptions. The total payment period across doctoral schools cannot exceed four years.

Since 1 January 2026, PWr has paid PLN 4,700 gross per month before midterm evaluation and PLN 5,700 gross after a positive result. These rates exceed the statutory minimum.

At the current minimum professor's salary of PLN 9,650, the statutory minima are PLN 3,570.50 gross before evaluation (37%) and PLN 5,500.50 gross after it (57%). The minima change if the professor's salary changes.

The scholarship is generally paid by the 25th of the month.

II. Social and health insurance

Pension, disability and accident insurance contributions are compulsory on the scholarship. Sickness insurance is optional. If you have no other basis for health insurance, the University may register you upon written request under the Office's current procedure.

The basic doctoral scholarship is exempt from Polish personal income tax. Current amounts and rules:

[Website \(Polish version only\)](#)

III. Increased doctoral scholarship

PWr runs a competition for a scholarship increase for second to fourth year students funded by the University. Students in the Industrial Doctorate programme are ineligible.

The increase is 15% of the minimum professor's salary. At PLN 9,650, it is PLN 1,447.50 gross per month. It is awarded for one academic year based on the previous year's achievements toward the dissertation.

In the latest published 2025/2026 competition, applications were submitted separately by discipline. Check the Doctoral School website for the next call's dates.

Current rules and announcements: [Website \(Polish version only\)](#)

The disability supplement is currently PLN 1,071.15 gross per month, or 30% of the statutory pre-evaluation minimum.

* Based on the list maintained by the minister responsible for higher education

ADDITIONAL FUNDING

Politechnika Wroclawska

I. Rector's Award

Doctoral School students may receive this award for outstanding research linked to their dissertation or for organisational work for the University. The current competition rules publish the criteria, dates and forms.

Information: [Website \(Polish version only\)](#)

II. Research scholarship from PWr's own fund

Internal Order 96/2025 sets the rules. The latest published 2025/2026 edition offered 50 scholarships of PLN 5,300 each. Applications were accepted from 11 to 26 March 2026.

The number, amount and deadlines may change. Check the current announcement before applying.

Current calls: [Website \(Polish version only\)](#)

III. Minigrants

The 2026 edition opened on 15 December 2025 under Internal Order 104/2024, as amended by Order 15/2025. Minigrants support dissertation research, including equipment, materials, research services, conferences and research trips, subject to the rules.

Second to fourth year Doctoral School students may apply. Industrial Doctorate students are excluded. A single minigrant can receive up to PLN 20,000.

The 2026 call has a PLN 1.21 million budget. Dates and rules may change in the next edition.

Current information: [Website \(Polish version only\)](#)

**mini
granty**
POLITECHNIKI
WROCŁAWSKIEJ

GRANTS AND OTHER DOCTORAL SCHOLARSHIPS

Politechnika Wroclawska

City and national competitions provide funding beyond University schemes. Some examples follow.

I. Wrocław Academic Centre (WCA)

Its scholarship for doctoral students studying in Wrocław is PLN 2,000 per month for nine months. Apply online from 1 June to 31 August. You may receive it once during doctoral education. [Website \(Polish version only\)](#)

II. Minister's Scholarship for Outstanding Young Scientists

Doctoral students may be nominated for this three-year scholarship. The current amount is PLN 5,390 per month. The Ministry of Science and Higher Education publishes the details and next deadline. [Website \(Polish version only\)](#)

III. START, Foundation for Polish Science

Applications for START 2027 are open from 10 September to 19 October 2026 at 23:59. The programme supports exceptional early career researchers.

[English information](#)

IV. PRELUDIUM, National Science Centre

PRELUDIUM funds projects led by researchers without a PhD. Direct cost ceilings for 12, 24 and 36 months are PLN 70,000, 140,000 and 210,000 respectively. Under current rules, the pool for additional remuneration of the project leader and any contractor is up to PLN 2,000 per month.

[English information](#)

V. Mieczysław Bekker Programme, NAWA

This programme funds international research stays for doctoral students and researchers at foreign research and academic institutions. It is open to all fields.

In the 2026 edition, stays could last 3 to 24 months. Applications closed on 29 May 2026. NAWA announces each new call separately.

Funding is not a fixed monthly amount. It depends on the destination and eligible costs in each edition's rules. The former PLN 3,750 monthly figure was therefore removed from this Infopack.

Current information and rules: [English information](#)

REPORTS EMPLOYMENT

Politechnika Wroclawska

I. PROGRESS SEMINARS

Every Doctoral School student must attend and pass an annual progress session in the summer semester [1]. Progress seminars are 15-hour courses for students in a given discipline. Depending on the faculty, the session may instead run over several days. Students present the past year's research in the context of their entire doctorate, as well as publications, conference participation and grants. The seminar leader explains how presentations are assessed.

Legal basis:

[1] § 11(1)(7), Doctoral School Regulations

II. EMPLOYMENT AT AND OUTSIDE THE UNIVERSITY

Changes to the Law on Higher Education and Science took effect on 1 October 2023. The former ban on employing Doctoral School students as academic teachers or research staff was removed.

The scholarship rule now concerns mandatory employment linked to admission rather than the amount of pay from a project. It reads:

“A doctoral scholarship is not payable to a student whose education at a doctoral school requires employment by the entity running that school:

- 1) under an employment contract;
- 2) with remuneration exceeding a professor's salary.” [1]

The provision targets cases where a student must be employed by the Doctoral School operator as a condition of joining the programme. Examples include EU MSCA Doctoral Networks and COFUND doctoral programmes, which require an employment contract. A research project financing the dissertation through another funder may impose a similar requirement.

It does not prohibit work under civil-law contracts. Nor does it restrict employment in technical or administrative positions or outside the University.

Further information:

[Website \(Polish version only\)](#)

Legal basis:

[1] Art. 209(1a), Law on Higher Education and Science

ASSOCIATIONS, EURODOC

Politechnika Wroclawska

I. National Representation of Doctoral Students (KRD)

KRD represents doctoral students across Poland, including those at universities and Polish Academy of Sciences institutes. Doctoral students elect its board annually. KRD has representatives on the General Council of Science and Higher Education and its Disciplinary Committee. It advocates for students with national authorities. Open board meetings, contact with student unions and information and training events connect the doctoral community nationwide.

More about KRD: [Website \(Polish version only\)](#)

II. Local and sectoral associations

Local associations bring together doctoral student unions in a region. Sectoral associations connect universities of a similar type. PWr belongs to the Association of Doctoral Students at Technical Universities (PDUT). Its members discuss current problems, effective solutions, good practice, research topics and laboratory equipment across technical universities.

More about PDUT: [Website \(Polish version only\)](#)

All associations: [Website \(Polish version only\)](#)

III. Eurodoc

Eurodoc, the European Council of Doctoral Candidates and Junior Researchers, is an international federation of 29 national organisations from 26 European countries. Its aims include:

- representing doctoral students and early career researchers in European education, research and career policy;
- improving doctoral programmes and research standards in Europe;
- sharing information, organising events, joining debates and helping shape higher education and research policy;
- promoting cooperation among national organisations representing doctoral students and early career researchers.

Further information: [Website](#)

PARKING, VPN

Politechnika Wroclawska

I. Campus parking

The iParking system manages campus access. Eligibility depends on your status and the specific car park. The current regulations took effect on 22 June 2026.

Key rules for doctoral students:

Wrońskiego Street car park: staff and doctoral students may use it. Other students may enter on weekdays after 14:30 and at weekends, subject to the rules.

D-20/D-21 car parks: access for staff and doctoral students.

C-13 car park: reserved for students.

Registration and access management: [Website \(Polish version only\)](#)

II. Secure VPN access to PWr-NET

PWr-VPN gives staff and students secure access to University resources off campus. Doctoral students use Palo Alto GlobalProtect.

1. Download and install GlobalProtect: [Website \(Polish version only\)](#)
2. Sign in with your PWr Active Directory account.
3. Connect to PWr-VPN before using resources restricted to the University network, including the Library's licensed databases.

For VPN help, contact pomoc+vpn@pwr.edu.pl.

LIBRARY, ORCID

Politechnika Wroclawska

I. Library registration and remote database access

Doctoral students can access the Library's licensed electronic resources after activating a library account. The HAN system has no longer been used for remote access since January 2025.

Off campus, connect to PWr-VPN through Palo Alto GlobalProtect using your Active Directory account. Then open databases and electronic journals through the Library website.

Current instructions: [Website \(Polish version only\)](#)

Active Directory support: pomoc+ad@pwr.edu.pl

VPN support: pomoc+vpn@pwr.edu.pl

II. ORCID

ORCID provides a persistent identifier for publication authors. Link it to your research output and use it consistently in publications and grant applications. PWr uses ORCID to identify research output and connect bibliographic systems.

PWr information: [Website \(Polish version only\)](#)

ORCID

RESEARCH OUTPUT (DONA)

Politechnika Wrocławska

What is a DONA research output statement?

It is an official record of your research output, with citations if requested. You will often need it for scholarship applications, such as PWR's own fund. To order your statement without signing in, use:

[Website \(Polish version only\)](#)

Complete the form as shown in the image and follow these steps:

1. Enter your full name in “Autor prac” (Author of works).
2. Select your faculty under “Jednostka zatrudn.” (Employing unit).
3. Complete the highlighted fields in the image:
 - enter the requested date, often covering the previous academic year;
 - request citations if your work has been cited.
4. Click “Składam zamówienie” (Submit order).

You should receive an order confirmation at your pwr.edu.pl email address, followed by the electronic statement, often on the same day.

WHERE TO EAT

Several places on the PWr campus serve food and coffee.

1. Student Culture Zone, building C-18, Hoene-Wrońskiego 10

At the Student Culture Zone:

- Canteen, ground floor: a changing daily menu with affordable vegetarian and meat dishes.
- Café, first floor: coffee, tea, desserts and sandwiches, plus a seating area with power outlets.

2. Bistro Bazylia, ground floor of D-20, Janiszewskiego 8

Bistro Bazylia serves sandwiches, hot snacks, ready meals, pierogi and salads.

3. Faculty Club, building A1, first floor, room 238, Wybrzeże Wyspiańskiego 27

It serves sandwiches, salads, drinks and lunch dishes, Monday to Friday, 8:00–15:00.

There are also many restaurants near the campus.

EMERGENCY AID, STUDENT RESIDENCES

I. Emergency financial aid

Since 27 March 2026, Art. 209a of the Law on Higher Education and Science has allowed a grant to a doctoral student facing temporary hardship. The Art. 92(2) limit applies accordingly: no more than two such grants in an academic year.

The Rector, in agreement with the Doctoral Students' Union, sets the detailed rules, documents, amount and procedure. This guide will be updated when PWr publishes its rules.

Legal basis: Art. 209a, Law on Higher Education and Science, Journal of Laws 2026, item 328.

KRD materials: [Website \(Polish version only\)](#)

II. Student residences

PWr provides single rooms for Doctoral School students on four floors of residence T-22 at Wróblewskiego 25. Family accommodation is also available in T-9 at Powstańców Śląskich 137.

Apply through the University's online system or USOS. Newly admitted students may report their housing needs under the Student Welfare Office's instructions, including by emailing dps@pwr.edu.pl.

In 2026/2027, a single room in T-22 costs a PWr doctoral student PLN 1,170 per month. Variable utility charges may apply. Current rules and fees: [Website \(Polish version only\)](#)

SUSPENSION OF STUDIES, BREAKS

Politechnika Wroclawska

“Doctoral students are entitled to breaks for rest of no more than eight weeks per year.” [1]

“Doctoral students are entitled to breaks for rest of no more than eight weeks per year, which should be taken when no teaching activities are scheduled (...).” [2]

You may take up to eight weeks of rest in each calendar year. Schedule it outside days when you teach or attend classes, as required by the Doctoral School Regulations [3,4].

Apart from rest breaks, education can be suspended for certain periods:

“At the doctoral student's request, education is suspended for a period corresponding to maternity leave, leave on maternity leave terms, paternity leave or parental leave under the Labour Code of 26 June 1974.” [5]

“At a doctoral student's request, the Dean suspends education for a period corresponding to maternity leave, leave on maternity leave terms, paternity leave or parental leave under the Labour Code of 26 June 1974.” [6]

The listed grounds do not include poor health. Education cannot be suspended for other reasons under these provisions.

Additionally:

“During suspension, the amount of the doctoral scholarship is determined by applying the rules for calculating maternity benefit accordingly. The basis for that calculation is the monthly doctoral scholarship referred to in paragraph 4, payable on the date of the suspension request.” [7]

The suspension period and the education periods mentioned above do not count toward the four-year scholarship payment limit [8,9].

Legal basis:

[1] Art. 208(1), Act [2] § 11(2), School Regulations [3] § 5(4), School Regulations

[4] § 8(1), School Regulations [5] Art. 204(3), Act [6] § 9(3), School Regulations

[7] Art. 209(6), Act [8] Art. 209(3), Act [9] § 18(10), School Regulations

PSYCHOLOGICAL SUPPORT, MEDIATION

Politechnika Wroclawska

PWr doctoral students can use free psychological support for stress, overload, crises and difficulties affecting research work.

Psychological support information: [Website \(Polish version only\)](#)

Book a consultation through the Psychological Support and Mediation Department's system:

[Website \(Polish version only\)](#)

The department also provides mediation for conflicts and difficult situations in the academic community:

[Website \(Polish version only\)](#)

For discrimination, unequal treatment or safety concerns, you can also contact Równa PWr or the Accessibility Department. Check their websites for current contact details.

LANGUAGE COURSES, SPORTS CLASSES

Politechnika Wroclawska

I. Language courses and foreign language requirement

To finish the Doctoral School and earn a doctorate, you must meet the learning outcomes at level 8 of the Polish Qualifications Framework, including knowledge of a modern foreign language. Admission already requires proof of English at B2 or higher through a certificate or degree. Therefore, no additional language proficiency examination is required.

English has been the Doctoral School's language of instruction since 1 October 2023, under the programme of study.

Students must complete two 30-hour English courses. They may take two further 30-hour courses as optional hours. A certificate from an external institution or a degree confirming English at CEFR C1 or higher can provide an exemption. Submit the certificate or degree to the Doctoral School Office to obtain it.

Further details are in Internal Order 86/2025 and at:

[Website \(Polish version only\)](#)

II. Sports classes

Doctoral students may enrol in up to two sports classes per semester: one during the USOS registration period and a possible second during the adjustment period. By the stated deadline, email zapisy.swfis@pwr.edu.pl with the course code, group number, class time shown in USOS and your phone number. USOS lists the registration dates and available classes.

Separate volleyball classes for doctoral students are offered each semester. The Doctoral Students' Council organises registration with the Director of the University Sports Centre.

SPORTS CARDS

Politechnika Wroclawska

I. MultiSport Plus

PWr doctoral students can access MultiSport through the University branch of the Polish Teachers' Union (ZNP). A separate “ZNP – Multisport DOKTORANT” form is available. Prices depend on the card and membership or employment status. Check the form for your correct option and current price before paying.

Applications are generally due by the 20th of each month. Current information and forms: [Website \(Polish version only\)](#)

II. Medcover Sport

The 2026 doctoral student offer: goFIT costs PLN 61.00 (twice weekly), 107.50 (once daily) or 134.50 (unlimited). FIT&more costs PLN 63.00, 110.49 or 138.50 for the same access levels.

Register between the 1st and 15th of the month before your start date. The current code and instructions are on the KRD website: [Website \(Polish version only\)](#)

AVAILABLE SOFTWARE

Politechnika Wroclawska

I. Microsoft 365

Under an Enterprise Enrollment for Education Solutions (EES) agreement, PWr provides Microsoft 365 and Teams to users including doctoral students. You may install the apps on up to five PC or Mac computers, five tablets and five smartphones. Sign in to [Website](#) with your pwr.edu.pl email address and Active Directory password. For login help, contact office365@pwr.edu.pl.

More information: [Website \(Polish version only\)](#)

II. Windows

You need an active Microsoft 365 account (section I) to access the Microsoft software. Use:

[Website](#)

Sign in as you do to Teams or Microsoft 365. After accepting the terms, find Windows and other apps under Free software / Explore all.

Further information from

[Website \(Polish version only\)](#)

III. Autodesk software

A pwr.edu.pl account gives eligible users access to annual Autodesk Education licences, such as AutoCAD. Open [Website](#), select a product, then sign in. New users should create an account using their University email address. If asked to verify student or employee status, submit a student ID scan or certificate. Access may take several days. Further instructions:

[English information](#)

AVAILABLE SOFTWARE

Politechnika Wroclawska

IV. MATLAB

The University offers MATLAB to all staff, doctoral students and other students. Create an account with your University email address on the publisher's site:
